

## Transforming Meetings into Interactive, Structured, and Productive Experiences.

StageTools combines structured meeting facilitation and visual interaction in a single, seamlessly integrated Teams app.

- **No More App Switching:** All tools are built into Teams.
- **From Passive to Interactive:** Replace static screen sharing with real-time interaction.
- **Clarity and Structure:** Timed agendas, live documentation, and instant decision
- **Efficient Preparation and FollowUp:** Joint agenda setting and resource sharing
- **Inclusive Collaboration:** Seamless presenter switching
